In the framework of the UNESCO’s Programme of Action for a Culture of Peace and Non-Violence and its flagship activities, your contribution is essential to the development of the Exhibition which intends to illustrate the wealth that flows from the different ways to think, to describe, to write and therefore to make and to live in peace, therefore countering violence in all its forms.

In this context, we would appreciate your contribution by providing us with the following information on:

- How do you write or how do you say in your own language the word “peace”: the words, the concepts and the ideas related to peace, expressed in the diversity of our linguistic and scriptural codes;
- If several typefaces or specific writings are available in your country;
- Which authors, men and women engaged in peace, and /or men and women of faith, poets, philosophers have expressed their opinions on the issue of peace and their quotes if available, including bibliographical and web-references.

This information will help us progress towards a convergence in this spirit of humanity’s interdependency and will enrich in a substantive way this exhibition in which you can actively take part. We would be honored if you could return to us this Application form completed as well as any other relevant attachment, convinced on the importance of this joint venture in promoting a Culture of peace.
